Pamplona

PAMPLONA.

Pamplona is a medium sized city, capital of the Region of Navarre, in the North of Spain close to the border with France. Pamplona is known world-wide for its famous San Fermin Festivals that take place every July and were made famous by Ernest Hemingway in his novel, "The Sun Also Rises" "Fiesta" in its Spanish version. Pamplona is a safe city where students can feel at home. It is not a tourist city so the students will have plenty of opportunities to speak Spanish to the local people while shopping or just out having a quiet coffee

THE SCHOOL:

The classes, both the Spanish Language classes as well as the Ethics classes, will take place in classrooms close to the students' residence. The teachers are university graduates with specialized training in the teaching of Spanish as a second language. They have ample experience in teaching Spanish and Spanish for specific purposes to American University students.

The classrooms are equipped with wifi so the students who bring their laptops can use the wifi, free of charge, within the installations.

OUR COURSES:

The school offers courses of Spanish as a second language to suit all levels as set out in the Common European Framework of Reference. The first day of class the student will be given a placement test and will be placed in the level that corresponds to the results of his/her test.

The methodology used in our courses enables the students to communicate effectively in Spanish, both orally and in writing. In our methodology the student is the protagonist and it is focused on his/her needs and objectives. We understand that the student is the centre of the teaching/ learning experience. Our methodology enables our students to carry out the linguistic tasks that are necessary for their daily activities.
